

## **JAMES E. MAY**

Environmental Scientist/Project Manager  
Environmental Science Division  
Argonne National Laboratory

### **Education:**

M.S. University of Wisconsin, Water Resources Management & Planning, 1971  
B.A. University of Indiana, Zoology, Microbiology, and Anthropology, 1969

### **Professional Experience:**

2006-Pres. Environmental Scientist  
Environmental Science Division, Argonne National Laboratory

Major projects and responsibilities:

- Providing support to IEED implementing TERA regulations
- Technical Lead for Sections of BLM/DOE Solar PEIS
- Project Manager for BLM Oil Shale/Tar Sands PEIS, 2007-2009
- Technical Lead on Land Use Section for MMS PEIS on Outer Continental Shelf Renewable Energy Program

Drawing on an extensive professional background in federal land management work closely with Argonne staff and client managers to apply practical approaches to environmental analysis of project impacts and to devise management and mitigation strategies. Responsibilities also include providing project management expertise, recommending technical approaches and methods in response to statements of work, and representing Environmental Science Division to current and potential clients.

### **Summary of Previous Experience:**
